In most cases, it is impossible to identify what will be affected and what will not be without extensive testing. Bidders are notified that the condition of the property, as expressed in item descriptive data, is based on visual inspection that is not adequate to determine year 2000 compatibility.
If you have an interest in any property that may be affected by the Y2K technology problem, you should contact the manufacturer or check the manufacturer's web site to see if any information is available regarding the property's year 2000 compatibility. You may visit the General Service Administration's Year 2000 web site at the following internet address: [http:// www.itpolicy.gsa.gov/mks/yr2000/y2home.htm](http://www.itpolicy.gsa.gov/mks/yr2000/y2home.htm) or you can also obtain information from the Federal Year 2000 Information Center at 1-888-872-4925.
